

PIPE LINE CUTTING MACHINE

Model: ECONOPIPE F

Installation Area: 9,000mm*1,500mm*1380mm

Cut Mode	Plasma Machine
Power Voltage	110V/220V 50/60Hz
Power Consumption (without Plasma machine)	5KW
Plasma power consumption	Depend on Plasma Power Source
Pipe Diameter	60-400mm
Pipe Length	6M
Square Tube	50-250mm
Square Tube Length	12M
Track Length	12.5M
Idle Speed	6,000mm/min
Chuck & Lock	Automatic way
Positioning accuracy	0.5mm/6000mm
Repeating accuracy	0.2mm/6000mm
Axle Qty (pcs)	3 axles, no bevelling
CNC Controller	HG822-F, 17" Monitor
Software for design & nesting	HG822 NESTING
Drawing format	DXF and edit
Servo Motors	Panasonic, 7 sets
Torch Height Sensor	Automatic
Construction	2 Sections for 6M
Maximum Loading	1,500Kg
Machine pipe to load	Ø260mm*6000mm*10mm
Dross free cutting thickness	10mm
Maximum wall thickness	10mm
Plasma cutting Torch	1 (pc)
Plasma power source	Customer to select Plasma model
Wall thickness	Depend on Plasma model
Gross Weight	1,270Kg
Net Weight	1,120Kg
Packing Size	4,000*1,600*1,700mm
